FLUSA
400 Series
Revised Nov-04

▶ FLUSA 400 Conference Bridge

High Quality Audio Conferencing at a price you can afford.

▶ 400 SERIES

FreelineUSA's FLUSA 400 Conference Bridge provides eight analog ports compatible with any PBX, Key System or standard telephone line.

Takes only minutes to properly install— providing secure, low cost, conferencing immediately!

▶ KEY FEATURES

☑ **Eight (8) LEDs** clearly indicate line status by port for clear and easy troubleshooting.

☑ **Plug and Play**, Simply dial the extension associated with the bridge, enter your conference manager password and start your audio conference. Attendees can dial in, or the conference manager can easily dial out to add users. Clear synthesized voice prompts

☑ **Secure** Once the call is in session the manager can lock the bridge from new entrants. New callers will then hear "A Conference is in Progress"

System is only 8" x 6"
Very Highest Density
