### **FL-USA DVR 500**

**DSP Based MPEG-4 Video Recording**  
DVR 500 Reliable, Affordable and Expandable!  
Rack Mount Version - Dimensions: 7" H x 19" W x 21" D

**Plug and Play— Models for 4 to 16 Cameras !**

**D**SP Codec's permit high quality NTSC color recording in standard Avi, MPEG-4 video that is fully compatible w/ Windows XP™ or Vista™ Video Media Player! This unique capability allows easy sharing of recorded videos for archiving and law enforcement. The DVR 500 records on multiple "user defined" motion areas— resulting in concise, activity based, surveillance video.

**F**reelineUSA, Inc., a Colorado Corporation, manufactures the FL-USA DVR 500 digital recorder for security managers worldwide. Our graphical DVR is designed for easy use, offering reliable video surveillance recording for your company 24/7- 365 days a year.

**The DIGITAL DVR just right for you.**  
Expandable to meet your needs. We offer DVR 500 systems from four to 16 cameras or more.

**Robust and expandable Hardware**  
Our DVR 500s are physically designed for long life application- 365 days a year. Extra cooling and HD expansion maximize your investment. We feature high reliability Intel™ CPUs with optional 19" rack mount, key locking chassis.

**Robust and easy to use DVR Software**  
Software is everything if you are the operator of your surveillance system! Standards based video file formats, combined with internet access, and ease of use, makes the DVR 500 your best choice for your new surveillance System.
